UNION SCHOOL DISTRICT

Board of Directors' Policy

DISTRICT TAKE HOME DEVICE &
PERSONAL DEVICE POLICY

POLICY: D3 Possibly

WARNED: _____

ADOPTED: _____

EFFECTIVE: _____

Overview

The mission of the District Take Home Device & Personal Device Policy in WCUUSD is to create a collaborative learning environment for all learners. This environment will support students and teachers in the use of technology to enhance student learning and engagement in the classroom. It will create equity and level the playing field for all learners by providing every student with a device to use both in school and at home.

In 2019 the District expanded the use of Chromebooks and the ability for students to take home the devices to support their schoolwork. Students at all WCUUSD schools will have the opportunity to check out a district-owned Chromebook (Grades 3-12) or Tablets (Grades PreK-2) for the school year. This device will allow filtered access via the district network to educational resources and materials needed for students to be successful. It will also allow all student access to G Suite for Education, online textbooks, educational web-based tools, and many other useful websites.

Education and Access

G Suite for Education is a closed system whereby only students and staff have access. It includes applications that enable students to:

- Create projects
- Collaborate with their classmates
- Send emails to students and teachers
- Submit assignments

As a G Suite for Education District, we are able to monitor student Chromebook activity through web-based management tools.

Before each Chromebook device connects to the Internet, it must pass through district network firewalls and filters. This happens whether the device is browsing at school or home using another WiFi router that is providing the Internet connection. We are currently using Content Keeper for Chromebook and other background tools.

Daily Care and Maintenance

Students are responsible for the general care of the Chromebook they have been issued by the school. Chromebooks that are broken, or fail to work properly, **must be submitted to administrators in the schools who will provide it to the IT department.** Do not take District owned Chromebooks to an

outside computer service for any type of repairs or maintenance. Do not attempt to repair the device yourself. We understand accidents happen. Report them immediately so that the district can fix the device.

- Students are responsible for bringing fully charged Chromebooks for use each school day.
- Chromebooks must have a District asset tag on them at all times and this tag must not be removed or altered in any way. If removed there may be disciplinary action.
- No food or drink is allowed next to your Chromebook while it is in use.
- Cords, cables, and removable storage devices must be inserted carefully into the Chromebook. Plug-in connectors are **fragile** and must be handled with care.
- Never transport your Chromebook with the power cord plugged in. Never store your Chromebook in your carry case or backpack while plugged in.
- Clean the screen with a soft, dry microfiber cloth or anti-static cloth. No liquids.
- Student should never leave a Chromebook unattended, such as in a vehicle or any unsupervised area.
- Transport Chromebooks with care, Chromebook lids should always be closed and tightly secured when moving.
- Never move a Chromebook by lifting from the screen. Always support a Chromebook from its base with the lid closed and open or close it using two hands.

Chromebook screens can be easily damaged! The screens are particularly sensitive to damage from excessive pressure on the screen.

- Do not store the Chromebook with the screen in the open position or tablet mode.
- Do not place anything on the Chromebook that could put pressure on the top or screen.
- Do not poke the screen with anything that **may** mark or scratch the screen surface.
- Do not place anything on the keyboard before closing the lid (e.g., pens or pencils)
- Do not place the device near magnets or anything with high electric current.
- Do not place anything in the sleeve or backpack that **may** press against the cover.

Digital Citizenship and Internet Safety

WCCUSD asks that all computing equipment is used for educational purposes or to support those employees who provide educational services. We expect device holders to use electronic resources safely and responsibly. We ask that students engage a trusted adult if you are unsure about something related to the use of your computer or electronic resources. We **ask** that you **do not** share your account information or the account information of others. Never post or share pictures of yourself or others unless you have school permission. Please tell a trusted adult if you come across something that is dangerous or disturbing. All school rules for how you behave and how you treat others apply for in-person and for electronic communications.

Security, Filtering, and Monitoring

The school district is required by law to provide certain levels of filtering and monitoring of the use of all district owned technology and electronic resources. All students are expected to support these efforts to provide a safe and legal electronic learning environment. It is expected that parents/guardians will monitor the student's use of the Internet at home so that the district-owned device is not used to access illegal or inappropriate websites or download any material from those sites. Please be aware of these cautions.

- Do not use district equipment or electronic resources for commercial or personal gain.
- Do not use **district resources and email addresses** for political purposes, like trying to influence elections.

- Do not use district resources for anything illegal or indecent such as bullying, posting inappropriate images or text, or passing along information that is harmful or inappropriate.
- Do not participate in any activity to alter, bypass or attempt to bypass the school district network, security settings, filters, safety settings, or user roles.
- Do not install or download personal software or applications (apps), games, or operating systems.

Lost or Damaged Equipment

Students and parents **are** responsible for district-owned technology that is issued to them, just as they are for other district-owned items such as textbooks, athletic equipment, or library books. The district will repair or replace the device, but students and parents may be responsible for the cost of those repairs or replaced devices. Please remind your student to report a missing Chromebook to the library staff or classroom teacher (in-person or via email) as **soon** as it's misplaced. We can help them locate. After 24 hours we will disable the device.

The WCUUSD Transportation Staff have been asked to return any found devices to the U-32 Technology Office.

Submit Chromebooks that need repair, with the sleeve and power cord to the Building Technology Specialist, teacher-librarian, or classroom teacher depending on your school. If we are able to fix the device, we will do so and return it. If we are unable to fix the problem, we will issue a new device. **Physical damage or lost equipment may cost a student or employee a replacement fee.**

Use of Personal Electronic Devices

In accordance with all district policies and procedures, students and staff may use personal electronic devices such as, but not limited to, laptops, mobile devices, cell phones, and e-readers to promote student learning and to further the educational and research mission of the district. The use of personally owned devices at school by staff and students is voluntary and a privilege, and subject to all school district policies and procedures. School staff will retain the final authority in deciding when and how students may use personal electronic devices on school grounds and during any school-related activity.

The district assumes no liability or responsibility for any act of a staff, student or guest user that is inconsistent with school district policies and procedures. Any individual who brings personally owned devices onto school property is solely responsible for that equipment.

If the District has reasonable cause to believe a staff member or student has violated school district policies or procedures authorized personnel may confiscate and hold a staff member, student's or guest user's mobile or personal device in accordance with school district policies and procedures **for privacy and security.**

Law Enforcement Requests Regarding District Devices

From time to time, the district may receive an equipment access or seizure request from law enforcement. In order to respond to these requests in a structured way, no employee, vendor, or consultant should act independently on these requests. Absolutely no district devices or accounts are to be given to law enforcement without permission of the Superintendent or Superintendent's

designee. All requests for equipment, software, or account access, including subpoenas should be directed to the Office of the Superintendent.
