

May 15, 2020 Update

Happy Friday U-32 Students,

I hope that you are seeing an end coming with our remote learning and are looking forward to the summer. We have a few weeks of work left and I know that you can do it. Some of you are completing your AP tests and I hope that you did well. We have a preliminary plan for our graduation and we will share it with the Board of Ed and you next Wednesday. We are working on some final logistics and it should be set. We are also sad that we will not have our end of year awards ceremony and Step-up day, but we are planning to do some things when we return in the Fall to celebrate the hard work that you have done all year and especially in the last couple of months.

We have started hearing questions about when you can come into the building and what will next year look like? We don't have answers to these questions yet. Most of the guidance on reopening has focused on businesses, not schools. We are waiting on the state for further information about how we will operate next fall, and as soon as we have that information, we will start planning and communicating with you.

We have a [little video](#) of what it looks like each day when the meals go out to our district and a note from Admin. We thought you might enjoy seeing the campus.

Stay strong and healthy, see you soon,  
Steven
