

March 26, 2020

Dear U-32 Parents, Guardians, and Caregivers,

By now you are hearing that the Governor has dismissed all schools for the remainder of the year and we will continue with learning on-line and remotely. I know that this news comes with a great deal of grief and sorrow for all of us. I became an educator so I could be in a school teaching kids on a daily basis, not looking at everyone through a screen. I have found U-32 a lonely place without students.

We will be putting together more complete plans on how we will work with you through the end of this school year and how we will still be able to celebrate the great accomplishments of our students. I started at U-32 six years ago. This senior class is my first group of 7th graders. To all you seniors, "you are my favorite!" As we learn more about how we will carry on during the next few months, we will be able to bring more information about how we will transition everyone to next year.

We are strong, we are a community, and we will still hold each other close again.
Go Raiders!

Take care and stay well,
Steven Dellinger-Pate
