

March 20, 2020

Good afternoon U-32 Families,

I want to keep this message short and simple. It has been an amazing week of learning new things and figuring out how to live in a semi-quarantined world. A couple of items of note:

- I have asked the staff to take tomorrow off from technology. We all need a break and time to rejuvenate and relax. Please do not email or call staff tomorrow, unless it is an emergency. Take time off of technology for yourself as well.
- I will be sending a regular Friday message only to students. If you want to know what I said, you will have to talk with them. Just some fun stuff to keep their spirits up.
- Starting Monday, we will be sending a newsletter to all parents with information for the week. This will be our one message a week with important information. We will try to send no other messages during the week in order to keep inboxes sane.

I hope everyone can find some peace this weekend.

Stay Healthy, stay safe,
Steven Dellinger-Pate
Principal
